Do you wish to know the quickest way to cure a cold? We will tell you. To cure a cold quicely, it must be treated before the cold has become settled in the system. The first sym-toms are a dry, loud cough and sneezing. The cough is soon followed by watery expectoration, and the sneezing by a profuse watery dis-charge from the nose. In severe cases there is a thin white coating on the tongue. What to do: It is only necessary to take Chamberlain's Cough remedy in double doses every hour. That will creatly lessen the severity of the cold and in many cases will effectually counteract it, and cure what would have been a se vere cold within one or two days' time. Try it and be convinced. 50 cent botiles for sale by Owen & Moore, druggists.

work." After the officers arrived in Nashville with their prisoner an American reporter was put on the case, and com his report the following is taken:

"From Turpin's attorneys it was learned that he was brought here for two reasons. First, because his surroundings in the jail at Gallatin were very odious, there being five lunatics incarcerated in the jail with him and only one sane prisoner; and second, because there was a rumor in circulation to the effect that friends of Carter would make an attemp to take Turpin from the jail and lynch bim. There was no very grave uneasiness to be felt from this source, but the friends of Turpin's victim had made numerous muttered threats when the new trial was granted Turpin, and in order to run no risks it was thought advisable by the authorities to keep him here until the next term of
